You can find out more about exactly what you can place in each collection bin at [www.fareham.gov.uk/wastesavers](http://www.fareham.gov.uk/wastesavers).

## What happens to your waste?

All residual waste from Fareham is incinerated to help generate electricity for the National Grid.

All recyclable materials are separated and recycled into new products or processed into Solid Recovered Fuel.

Food waste is sent to an Anaerobic Digestion plant to create eco-friendly energy.

It is not sent to landfill sites either here or overseas, so you can rest assured that your waste is disposed of in a sustainable way.

**Our dedicated support team are on hand to provide information on our prices and contract options, how to order and pay, guidance on the new legislative changes and what they mean for you, and even support you through the process of seamlessly transitioning from your current supplier to WasteSavers.**

WasteSavers is fully compliant with new Simpler Recycling legislations and, as your local Council organisation, you can rely on our team to provide flexible options and respond quickly to your needs.
